MD IN UZBEKISTAN

Becoming a doctor in Uzbekistan reflects a deep commitment to advancing health and transforming lives, inspired by the rigorous training and excellence provided by our universities

FOR SEPTEMBER SESSION 2024

www.educationbusinessworld.com

Welcome!

Pursuing an MD in Uzbekistan offers an exceptional opportunity to receive a world-class medical education within a supportive and culturally rich environment. The country's advanced medical institutions provide rigorous training, combining cutting-edge knowledge with practical experience. This educational journey not only equips future doctors with the skills needed to excel but also immerses them in Uzbekistan's warm and welcoming culture. The dedication to healthcare excellence and community service found here inspires students to contribute meaningfully to both local and global health improvements

"Shifokor – bu hayotni saqlovchi, nafaqat kasallikni davolovchi." —

Alisher Navoi

"A doctor is one who preserves life, not just treats illness."

MEDICAL UNIVERSITIES IN UZBEKISTAN

Uzbekistan is home to a number of prestigious medical universities, each contributing uniquely to the country's healthcare education landscape. These institutions offer comprehensive programs that blend advanced medical techniques with practical training, preparing students to excel in diverse healthcare settings.

1. **Tashkent Medical Academy:** Esteemed for its pioneering research and state-of-the-art facilities, it stands at the forefront of medical education in Uzbekistan.
2. **Samarkand State Medical University:** Celebrated for integrating traditional and modern medical practices, providing students with a well-rounded and robust education.
3. **Andijan State Medical Institute:** Known for its emphasis on primary care and community health, this institute equips students to address a broad spectrum of health challenges.
4. **Bukhara State Medical Institute:** Offers a unique combination of advanced medical knowledge and traditional healing methods, fostering versatile healthcare professionals.
5. **Karshi State Medical Institute:** Focuses on clinical skills and public health, preparing graduates to make significant contributions to both local and global healthcare.
6. **Fergana State University (Medical Faculty):** Renowned for its emphasis on research and contemporary health issues, it provides a dynamic and forward-thinking education.
7. **Jizzakh State Pedagogical Institute (Medical Faculty):** Merges medical training with pedagogical expertise, cultivating future educators and healthcare practitioners.
8. **Kokand State Pedagogical Institute (Medical Faculty):** Dedicated to community health and clinical practice, this faculty nurtures students for diverse and impactful roles in healthcare.

Together, these universities represent the pinnacle of medical education in Uzbekistan, offering exceptional training that prepares students to excel in various facets of healthcare.

ANDIJAN STATE MEDICAL INSTITUTE

(ASMI)

UZBEKISTAN

ESTABLISHED IN 1955

(Owned by Govt. of Uzbekistan)

About the Institute

Andijan State Medical Institute (ASMI) is a prominent higher education institution located in Andijan, Uzbekistan, renowned for its comprehensive medical education programs and significant contributions to healthcare in the region. Established in 1955, ASMI has evolved into a leading center for medical training, research, and healthcare services. Andijan State Medical Institute is approved by the National Medical Commission (**NMC**) and recognized by the World Health Organization (**WHO**). The institute offers a wide range of undergraduate and postgraduate programs in medicine, dentistry, nursing, and pharmaceutical sciences, catering to both local and international students.

ASMI is recognized for its modern facilities, experienced faculty, and a strong emphasis on practical training in clinical settings. The institute collaborates closely with healthcare institutions across Uzbekistan, providing students with valuable hands-on experience and ensuring they are well-prepared to meet the healthcare challenges of the 21st century. ASMI's commitment to academic excellence and innovation continues to attract aspiring healthcare professionals seeking a solid foundation in medical education and research.

Andijan State Medical Institute (ASMI) offers various programs across various healthcare disciplines. The institute includes departments such as **General Medicine, Dentistry, Pediatrics, Pharmacy, Nursing, and Public Health**. These departments cater to undergraduate (Bachelor's degree) and postgraduate (Master's and Doctoral degrees) students, providing specialized training and education in their respective fields.

Andijan State Medical Institute currently has an enrollment of **7,054** students across its diverse range of medical (6 years including internship) and healthcare programs. The institute attracts a large student body from Uzbekistan as well as from other countries interested in pursuing medical and healthcare education at a reputable institution in Central Asia. The exact enrollment figures can be obtained from ASMI's official records or recent reports from the university administration.

Why Andijan State Medical Institute?

Andijan State Medical Institute is dedicated to providing high-quality professional training to its students, aiming to equip them for successful careers in healthcare. The institute actively engages in numerous international conferences, seminars, and exhibitions through its partnerships and alliances abroad, ensuring students receive ample opportunities for international exposure and holistic development.

Renowned as one of the premier medical institutions in Uzbekistan, ASMI comprises **12** educational departments offering approximately **154** educational programs.

The institute maintains strong international collaborations across various disciplines, enhancing its global academic standing. Situated in Andijan, ASMI is a pivotal hub for industrial, cultural, educational, and administrative advancements in the region. With a diverse student body exceeding **3,500** from around the world, ASMI is particularly popular among Indian students seeking medical degrees in Uzbekistan, drawn to its vibrant campus life and extensive facilities including creative arts centers, museums, tourism facilities, a sports complex, and numerous student organizations for active participation and engagement.

Hostel and other facilities in Andijan State Medical Institute

Andijan State Medical Institute offers comprehensive hostel facilities to support the diverse needs of its students:

- **Accommodation:** Rooms accommodate 2-4 students with essential furniture and utilities provided.
- **Amenities:** Common areas for socializing, study rooms for academic focus, and reliable Wi-Fi connectivity throughout.
- **Dining:** A well-equipped mess serves three meals daily, catering to various dietary preferences.
- **Security:** Round-the-clock security services ensure safety, with emergency medical assistance readily available.
- **Recreation:** On-site sports facilities, including courts and gymnasiums, promote physical well-being and extracurricular engagement.
- **Maintenance:** Regular cleaning services and laundry facilities maintain hygiene and convenience.
- **Location:** Situated conveniently close to campus, with easy access to public transport for exploring the city and nearby amenities.

These facilities create a supportive and comfortable living environment, fostering a conducive atmosphere for academic success and personal development at ASMI.

Duration of MBBS/MD/BDS in Andijan State Medical Institute

The duration of the MBBS/MD and BDS program at Andijan State Medical Institute typically spans 6 years. This period includes both theoretical study and practical training, ensuring students receive a comprehensive education in medical sciences and clinical practice. Upon completion of the program, graduates are awarded a degree that is internationally recognized, preparing them for medical practice or further specialization in their chosen field.
